

Yealink T20P

Yealink has expanded its line-up of IP phones with a new entry-level product – the SIP-T20P. This is equipped with a TI TITAN chipset and 2x15 character LCD. It offers two VoIP accounts, high-definition audio, a broad range of voice codecs and security protection for privacy. It also provides rich features that include headset, PoE and PnP Auto-provision. In addition, the unit works seamlessly with leading IP-PBX and soft switch developments. It allows users to make calls in a simple, convenient and reliable manner while meeting all basic business feature requirements. What is more, the SIP-T20P is easy to install and inexpensive to start up for both corporate office and residential users.
